Career Objective

Detail oriented and analytically driven fresher with an MCA (Master of Computer Applications), seeking to begin a career in the technology domain, including roles in data analysis, software or application support, IT operations, or research driven analyst positions. Equipped with hands on experience in data collection, structured analysis, pattern recognition, and insight reporting, gained through a 3 month Data Analytics Internship with Team Lead responsibilities. Quick learner with a strong technical foundation, adept at translating raw data into clear findings and communicating results effectively through structured reports and presentations.

Core Competencies

Technical Skills: MS Excel (Pivot Tables, Charts, VLOOKUP), Python (Pandas, NumPy), SQL, PowerPoint

Analytical Skills: Data Collection, Exploratory Analysis, Pattern Identification, Insight Reporting, Trend Analysis

Data Visualization: Charts and Graphs (Excel, Python), Summary Dashboards

Communication: Report Writing, Data Storytelling, Presentation, Active Listening

Soft Skills: Critical Thinking, Problem Solving, Team Lead, Attention to Detail, Time Management, Adaptability

Experience

Research Analyst

May 2025 to Present

Arcgate Technologies LLP

- Responsible for data collection from multiple sources, ensuring accuracy and relevance for research and analysis needs.
- Handled data processing and organization, preparing structured datasets for further review and reporting.
- Maintained consistency and quality standards while working with large volumes of data on a regular basis.

Data Analytics Intern, Team Lead

Jan 2026 to April 2026 (3 Months)

Uptoskills

- Conducted structured exploratory data analysis (EDA) on real world datasets, identified key patterns and trends to support data driven reporting.
- Cleaned, organized, and validated datasets to ensure accuracy and consistency for downstream analysis.
- Prepared analytical summaries and performance reports by synthesizing data from multiple sources into clear, actionable insights.
- Led the team as Team Lead, assigned tasks, tracked progress, and ensured quality and timely delivery of work.
- Developed an eye for data anomalies and applied structured reasoning to interpret results meaningfully.

Projects

Fake News Detection System

 fake-news-detect-by-cb.streamlit.app

NLP, Text Analysis, Classification, Python

- Built a machine learning and NLP based system to classify news articles as real or fake using a labelled corpus.

- Performed text preprocessing and feature extraction (TF-IDF) to prepare unstructured data for model training.
- Evaluated multiple classification models using accuracy, precision, recall, and F1 score, deployed the final model as an interactive web app.

Personal Portfolio Website

 chandrabhan.me

Web Development, Information Architecture

- Designed and built a personal portfolio presenting skills, projects, and academic background in a clear, recruiter focused format.
- Applied information architecture principles to organize diverse content categories for easy navigation.
- Demonstrated ability to synthesize and present complex information in a simple, accessible manner to a general audience.

Certifications

- Hands on Approach to AI for Real World Applications, TCS, 2025
- Excel Skills for Business, JP Morgan Chase, 2023
- Linux Training, Spoken Tutorial, IIT Bombay, 2025

Education

Master of Computer Applications (MCA)	July 2024 to June 2026
Jaipur National University, Jaipur	75.80%
Post Graduate Diploma in Computer Applications (PGDCA)	Aug 2023 to June 2024
Jaipur National University, Jaipur	75%
Bachelor of Arts (B.A.)	July 2020 to June 2023
Shri Khushal Das University, Hanumangarh	69.39%

Additional Information

Languages: English, Hindi
Interests: Technology, Data Driven Decision Making, Business Analytics, Emerging Technologies
Hobbies: Solo Travelling, exploring local cultures and documenting observations
